Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-13, drawn to a method of making a wax decoration, classified in class 264, subclass 15.
 - II. Claims 14-24, drawn to a wax decoration item, classified in class 428, subclass 484.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the decoration item could be prepared by a method which uses a centrifuge to mix the polyethylene wax, cyanide polymer and the white wax instead of heating the components to form a mixture.

Rejoinder of claims will be considered upon indication of allowable subject matter pursuant to MPEP 821.04.

3. A telephone call was made to Eugene Mar on February 19, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
